

# Head of ASIC Development

## Job Offer

### The Company

3Brain AG is a Swiss deep tech company working on cell-electronic interfaces that link biological networks to computers via custom-made semiconductor microchips. Our mission is to empower life scientists to probe intelligent networks, accelerate biomedical discoveries for the benefit of patients, and create a future more exciting than the present. Our interdisciplinary team of scientists and engineers are constantly pushing the boundaries of engineering for life's complexities. We are ambitious, fast-growing and love to explore. The company is headquartered in Switzerland nearby Zurich, has a R&D office in Genova, Italy, and has installed its cutting-edge products in laboratories and pharma companies worldwide.

### Job description

For the next expansion step, 3Brain is looking for a Head of mixed-signal ASIC Development to reinforce our R&D team. The candidate will lead a group of ASIC design engineers and help plan and design the future CMOS-sensor products of 3Brain. This senior-level position entails supervisory responsibilities and also requires extensive hands-on design. Main responsibilities:

- Lead the design team from the definition of architecture, design, implementation (schematics, simulation, layout), performance modelling and validation. Outstanding leadership in a fast-paced environment.
- Development of next generation of CMOS-biosensors.
- Document design methods, specifications and functional requirements.
- Create detailed test specifications and reports.
- Maintain up-to-date knowledge of relevant literature and state-of-the-art circuit designs.

### Required Qualifications

- MSc/PhD in Microelectronics with profound, 10+ years professional experience in ASIC-design.

- Expert in CMOS Analog Electronics Workflow (Schematics, Layout, Verification) and a good understanding of the digital toolchain.
- Prototyping (MPW) and chip testing.
- Fluency in English.
- Great team spirit, outstanding personality and strong will to lead a group of ASIC designers.
- Initiative, independence and ability to communicate and work effectively with other team members in a multicultural and international environment.
- Applicant must already have a work permit for the Schengen area.

## Additional Qualifications

- Fluency in German.
- Knowledge of Matlab and/or Python.

## What We Offer

- A dynamic and stimulating work environment driven by a desire to build transformational technologies to help others.
- A young, fast-growing company with plenty of opportunities for personal growth and development.
- Great challenges and adventures in both technical and economical fields.
- Working place: **Pfäffikon SZ, Switzerland**. It is a beautiful lakeside village just outside of Zurich, the country's main cultural, financial and business center.
