

Digital Designer

Job Offer

The Company

3Brain AG is a Swiss deep tech company working on cell-electronic interfaces that link biological networks to computers via custom-made semiconductor microchips. Our mission is to empower life scientists to probe intelligent networks, accelerate biomedical discoveries for the benefit of patients, and create a future more exciting than the present. Our interdisciplinary team of scientists and engineers are constantly pushing the boundaries of engineering for life's complexities. We are ambitious, fast-growing and love to explore. The company is headquartered in Switzerland nearby Zurich, has an R&D office in Genova, Italy, and has installed its cutting-edge products in laboratories and pharma companies worldwide.

Job description

For the next expansion step, 3Brain is looking for a digital designer to reinforce our sales & marketing team. You will help create visual design solutions for products, scientific data and digital campaigns. You will share responsibility for website design and other software user interfaces. You will also contribute to color, typography and general design strategy on a variety of company communications, from physical assets like flyers to customer emails to social media graphics.

In particular, your tasks involve:

- Design on-brand creative solutions for a variety of uses: websites, product graphics, email templates, social media graphics, brand campaigns, and photography
- Take ideas from concept to execution, working with sales managers, marketing colleagues, and content experts to deliver an effective user experience
- Collaborate with cross-functional teams to deliver designs that are creative, useful, and align with technical and brand standards
- Use the latest software and applications to design and develop digital solutions

Required Qualifications

- Independence and ability to communicate and work effectively with other team members in a multicultural and international environment
- Front-end development skills including HTML and CSS, testing designs for usability and quality
- Minimum of 2 years of professional experience in digital design
- Ability to work on multiple projects and meet deadlines, conceptualization, design and creation of prototypes and mock-ups
- Hands-on experience generating high-quality graphics and illustrations
- Fluency in English
- Proficiency with Adobe Creative Suite software

Additional Qualifications

- Candidates with experience in Webflow have high priority
- Experience with visualizing scientific data
- Knowledge of software for 3D animation (e.g., 3ds Max)
- Knowledge of 3D CAD software (e.g., Inventor)
- Please link to your design portfolio if available
- Creativity, communication and presentation skills

What We Offer

- A dynamic and stimulating work environment driven by a desire to build transformational technologies to help others.
- A young, fast-growing company with plenty of opportunities for personal growth and development.
- Great challenges and adventures in both technical and economical fields.
- Working place: **Genova, Italy**. a wonderful Mediterranean and historical city located nearby world-renowned places such as Portofino and Cinque Terre and 2 hours from Milan, the fashion and business hub of Italy.
